- Shelf frames can be mounted vertically or follow the body side. The floor bracket is adjustable in four different angles, 0, 4, 8 or 12°.
- Shelves can be mounted at corresponding angles so the shelf is in horizontal position.
- Two different locking hooks come with each shelf bracket, locking the shelf in 70 or 90°.

- Instead of locking hook you can use a gas damper.
- Payload 100 kg per shelf, uniformly distributed.
- Shelves in 300, 400 and 470 mm depth fit in our shelf brackets. Drop front shelves can also be used.
